

# Windowmaker Option

## Advanced Delivery Scheduling

### Overview

An advanced facility to allocate Sales Orders or Sales Lines to individual deliveries

### Benefits

#### The Fabricator

- ▲ All the benefits of Delivery Scheduling
- ▲ Gains the flexibility to optimise the delivery schedule as per requirements
- ▲ Gains the ability to make changes to the delivery schedule of individual Sales Lines

### Features

- ▲ All the features of [Delivery Scheduling](#)
- ▲ You can move Sales Lines within a scheduled Sales Order to other deliveries
- ▲ You can move part-items to other deliveries, if used in conjunction with the [Tracking](#) option
- ▲ Windowmaker continually checks that the schedule remains valid

### Related Options

- ▲ You need [Windowmaker Express](#) or higher

The screenshot shows the 'Schedule Items' dialog box. It contains a table with columns: Item, Description, Quantity, Source, and Delivery. Below the table are several input fields and buttons for configuring the schedule.

| Item | Description            | Quantity | Source           | Delivery                      |
|------|------------------------|----------|------------------|-------------------------------|
| 1    | Casement Fixed         | 25       | 1/0101A 1/1/2008 | 113 1/11/2008 1/Tuesday route |
| 2    | Residoor L             | 50       | 1/0101A 1/1/2008 | 113 1/11/2008 1/Tuesday route |
| 3    | Standard Prod. - Loc 1 | 100      | Home             | 113 1/11/2008 1/Tuesday route |
