

Assembly List

Overview

A facility to output manufacturing details for each sales line in a sales order.

What are the benefits?

Helps the user:

- ▲ Avoid mistakes by utilizing clear, distinct manufacturing instructions for each sales line in a sales order.

Features

- ▲ You can output selected options and components along with scaled graphic of the design.

Many details within the format are user definable:

- ▲ Customer Reference
- ▲ Part List
- ▲ Glass List
- ▲ Glass Due Date

The program can display sales line graphics in two modes:

- ▲ Simple line graphics.
- ▲ High resolution detailed graphics.

The program's flexible print control allows you to:

- ▲ Print in condensed mode.
- ▲ Include Position Codes in the output.
- ▲ Print multiple assembly lists for sales lines with a quantity more than one.

Implementation

You need [Windowmaker Express](#) or higher / [Windowmaker Lite](#).

The screenshot displays the 'Assembly List' window for 'YOUR COMPANY' on 23 Feb 85. It includes a window design with dimensions (600x770) and a list of components with their stock numbers, quantities, and sizes.
