

Batching of Sales Orders Automatically

Overview

A facility to automatically select jobs for processing in a batch.

What are the benefits?

The Fabricator

- ▲ Provides great flexibility in automatically selecting the jobs to be included in a batch
- ▲ Reduces order processing time by rapidly extracting multiple jobs for processing
- ▲ Enhances order processing efficiency by, e.g. scheduling jobs for a particular route together

Features

- ▲ Jobs can be automatically selected based on definable criteria
- ▲ You can define multiple selection criteria to extract jobs by:
- ▲ Choosing from 23 types of criteria eg. Delivery date, Job Status
- ▲ Specifying the details for each criterion

A defined criterion can be:

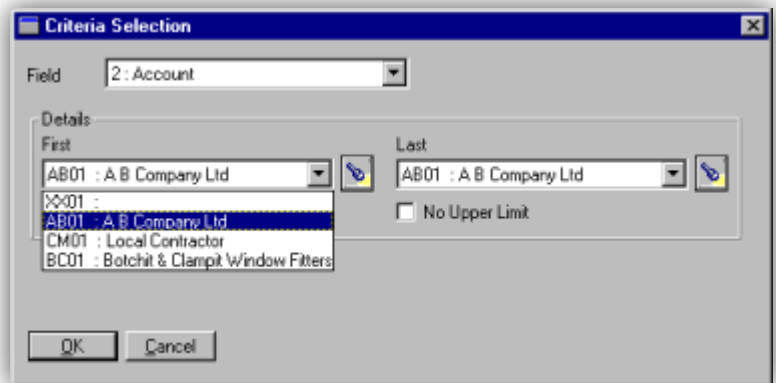

- ▲ Opened and modified
- ▲ Removed
- ▲ Discarded to retain the previous batch

The program can automatically:

- ▲ Lock the jobs which satisfy the defined conditions
- ▲ Include all jobs if no criterion is defined

Implementation

- ▲ You need **Windowmaker Express** or higher.
