

# Windowmaker Option

## Hundreds of Standard Designs

### Overview

A standard feature of Windowmaker is the ability to start designing windows and doors immediately, from the comprehensive library of templates.

### Features

- ▲ Helping you get started quickly and easily, the Standard Design feature helps:
  - △ Eliminate the need of designing a door or a window every time, by using built in templates
  - △ Speed up the process of Order Entry
  - △ Avoid design errors
  - △ Easily add new design templates, using your own popular or standard designs
- ▲ Up to 999 designs and descriptions can be stored, with design categories associated with specific systems to further control and streamline the Order Entry process
