

Windowmaker Option

Multiple Glass Tables

Overview

A facility to optimise glass of different stock sizes by using multiple cutting tables.

Benefits

The Glass Shop/ Supplier

- ▲ Gains ability to handle multiple cutting tables representing different stock sheets
- ▲ Gains flexibility to split a batch across multiple glass tables

Features

- ▲ You can:
 - △ Define cutting parameters and methods of up to 10 different automatic Glass Cutting Tables
 - △ Allocate a cutting table for each stock sheet
 - △ Automatically produce control information for each cutting table

Note: This facility is only useful when more than one glass cutting tables are in use.

A screenshot of the 'Stock Sheet' dialog box. The dialog has a title bar with 'Stock Sheet' and a close button. It contains several input fields and checkboxes. The 'Cutting Table' field is a dropdown menu showing '10: Powergrind'. The 'Width' field contains '3120' and the 'Height' field contains '2000'. There is a 'Stock' section with a 'Physical' field containing '2' and a 'No Limit' checkbox. At the bottom are 'OK' and 'Cancel' buttons. There is also a 'Don't use now' checkbox in the top right.

Cutting Table	10: Powergrind	<input type="checkbox"/> Don't use now
