

Windowmaker Option

Purchase Ordering

Overview

Facility to generate purchase orders for Bought-to-order type components.

Benefits

The Fabricator

- ▲ A Purchase Order can be generated for a batch of Sales Orders and can be placed to the supplier
- ▲ Easy access to the Purchase Orders generated and stored in the database
- ▲ Saves time and eliminates mistakes by automatically generating Purchase Orders

Features

- ▲ You can generate purchase orders for Bought-to-order type components
- ▲ The Purchase Ordering option is available for:
 - △ Progressing the status of Purchase Orders
 - △ Allocating P.O. Nos.
 - △ Automatically printing the 'Purchase Order Document' when the Purchase Order is updated to status 'Ordered'
 - △ Saving the 'Purchase Order Document' in the Windowmaker database
