

Windowmaker Option

Sealed Unit Pairing

Overview

A facility to control glass piece distribution during optimisation

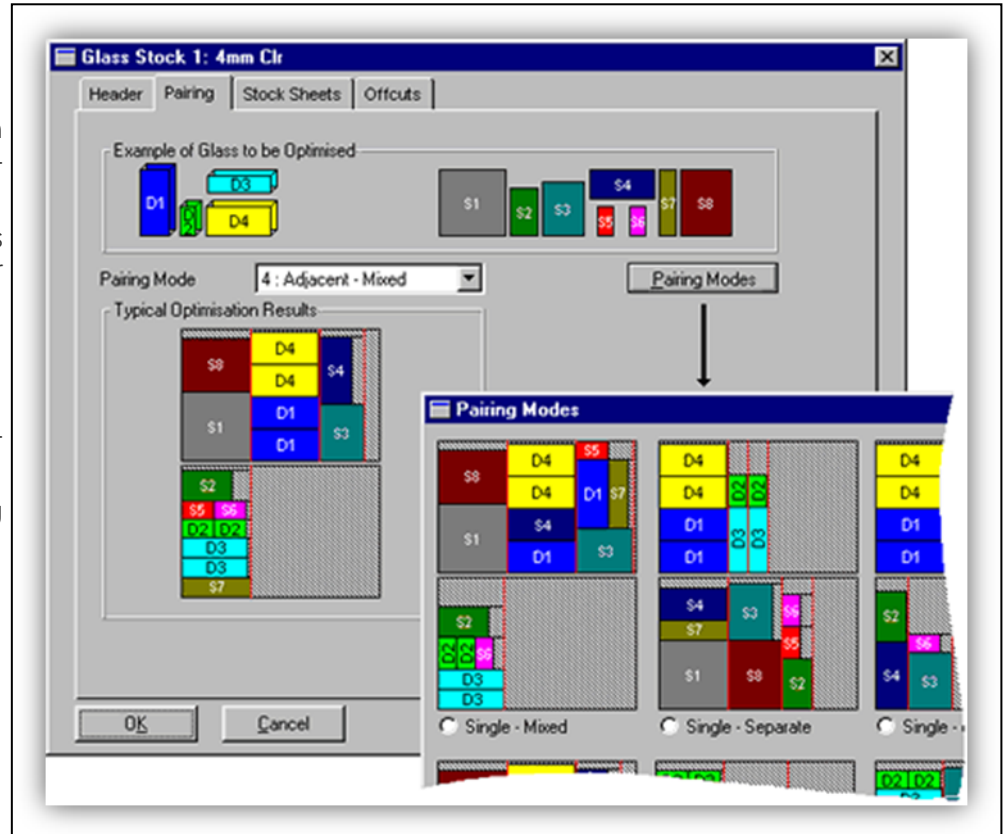

Benefits

The Glass Shop/ Supplier

- ▲ Strikes a balance between ease of handling and optimisation yield
- ▲ Saves time by racking cut glass in the sequence required for assembling sealed units

Features

- ▲ You can mix or separate different glazing types
- ▲ The program can optimise using 8 different pairing modes:
 - △ Single - Mixed
 - △ Single - Separate
 - △ Single - Combined
 - △ Adjacent - Mixed
 - △ Adjacent - Separate
 - △ Adjacent - Combined
 - △ Double - Separate
 - △ Double - Combined
