

Windowmaker Option

Upgrade from 5 - Unlimited Graphical Products

Overview

A facility to store unlimited number of non-stock graphical products in Windowseller

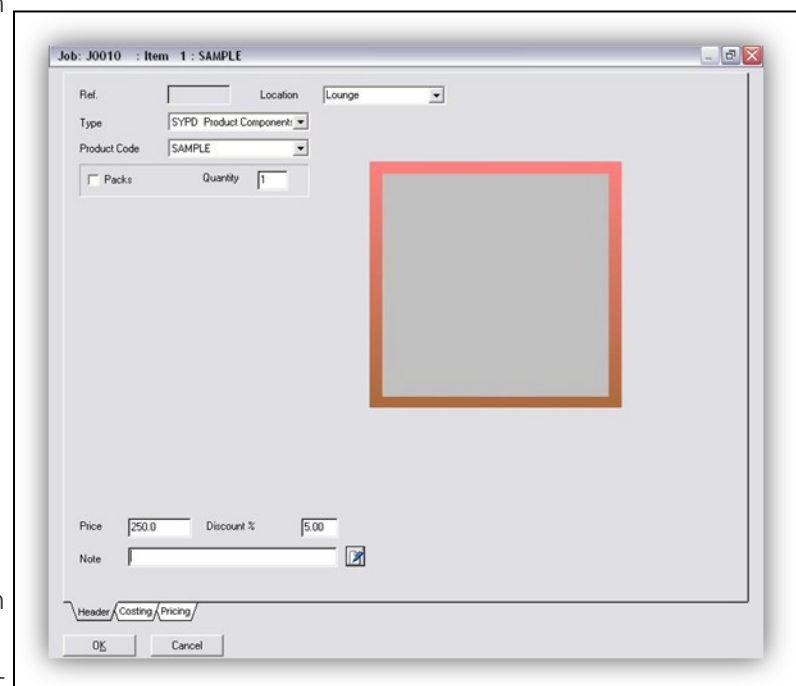

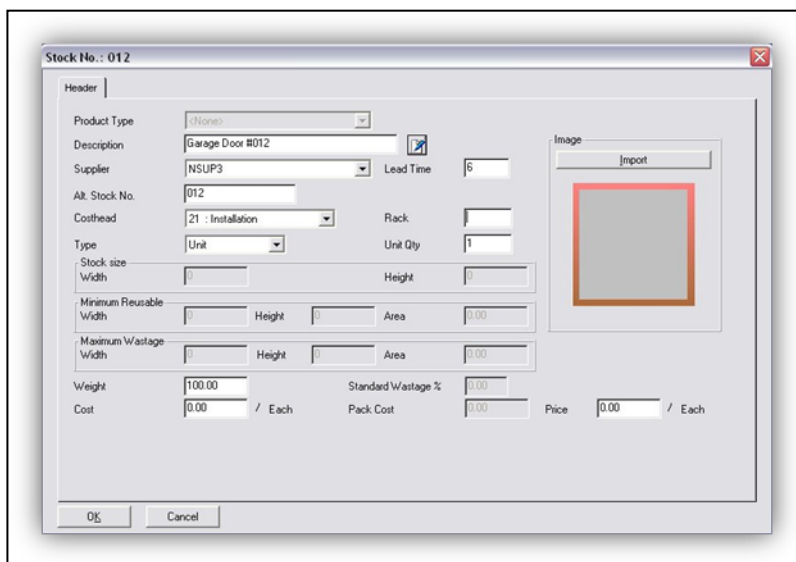

Benefits

The Reseller/Installer

- ▲ Gains the ability to store more than 5 non-stock records
- ▲ Gains the flexibility to sales quote and supply non-design graphical products like garage doors, gates, shutters, etc. along with the design Sales Lines

Features

- ▲ The program allows to create and view records for non-stock components
- ▲ You can open, edit and delete the non-stock records
- ▲ You can set-up various details for Installation Costhead including:
 - △ Description
 - △ Multiline product description
 - △ Alternative stock number
 - △ Supplier
 - △ Type
 - △ Rack
 - △ Unit quantity
 - △ Stock Size
 - △ Reusable specification
 - △ Weight
 - △ Cost
 - △ Price
- ▲ You can associate each graphical product with a .BMP/.JPG image
- ▲ You can create a Product Sales Line for the non-stock graphical product
- ▲ The costing and pricing details will be calculated and displayed during Order Entry
- ▲ The details including graphics and multiline text can be output on Customer Documents

Related Options

- ▲ You need [Windowmaker Express](#) or higher / [Windowseller](#)
