Notes:

A resolution of 1024 x 768 is ideal for running Windowmaker. However, a higher resolution is recommended while using Curtain Walling option.

If Windowmaker Software is hosted on Application Server, thin clients can access Windowmaker through following ways:

- RDP connection (HTTP)
- Terminal Services

For RDP Connection / Terminal services to work, additional CALs (Client Access Licenses) will be required to allow workstation / thin client to connect to the Application Server running Windowmaker.

Operating System Compatibility		
Application Server / Workstation Operating System	Windowmaker & Windowseller Program	Windowmaker 16 – bit Batch Process
Windows XP	✓	✓
Windows Vista 32 Bit	✓	✓
Windows Vista 64 Bit Home / Professional Edition	✓	✗
Windows 7 32 Bit	✓	✓
Windows 7 64 Bit Starter / Home Edition	✓	✗
Windows 7 64 Bit Professional / Ultimate Edition	✓	Requires Windows XP Mode
