## Windowmaker 2018 R3.9

General Enhancements

Entrance Doors

Door Style graphics now use green instead of pink to have a [Green Screen/Chroma Key](#) effect.

Before upgrade:

After upgrade:

Database Schema Changes

Changes specific to database tables:

Table	Column	Change
WMSalesHeaderTable	ScheduleStartDate	Added
	TaxA1ID, TaxA2ID, TaxA3ID and TaxBID	Added
	TaxA1, TaxA2, TaxA3 and TaxB	Removed
WmTrackingTable	ScanCount	Added

Changes specific to database views:

Name	Remarks
WMSalesHeader	Added TaxA1ID, TaxA2ID, TaxA3ID and TaxBID columns

Issues resolved

General | List views - 1872371
The problem with the selection line not moving to the desired record when searching on any list view by directly typing on it is now resolved. The focus and selection move to the first searched record which can be opened by directly pressing <Enter> or double-clicking the mouse.

Order Entry | Sub-Orders - 1976154
The problem with sub orders being created at 'Input' status instead of the Phased Order status is now resolved.

Order Entry | Remakes - 1975486
The problem with sash records not visible on Remake dialog for sales lines created using Excel systems is now resolved.

Order Entry| Composite Doors - 1975813
The problem with Glass Inserts sometimes not getting applied correctly is now resolved. This problem occurred when there were more than one Cut-outs and the Glass Insert Option had a criteria option which is not 'Mixable' type. This now works correctly.

Tools| Transfer Data - 1975631
Frame Production Settings were not transferred using Tools |Transfer. This is now corrected by including these settings in the transfer.

Windowseller- 1974209
The problem with updates related to Costheads not getting applied in the Windowseller data during automatic updates at start-up is now resolved. The changes to Costheads are applied correctly in the Windowseller data.

Setup | Standard Product - 1976184
The problem with Windowmaker crashing on saving a standard product if the WSalesLineTable table had any User Defined column is now resolved.

Setup |Parts | User defined fields - 1976328
The problem with User defined fields defined on the WMProduct table not being available on Unit parts is now resolved.
